

## **Vacancy - Business Systems Controller**

Join us in creating the most innovative underwater robotic technology for the harshest environments in the deepest oceans and most turbulent waters.

We lead the world with the most advanced engineering, electronics and software systems for pioneering electric underwater technology.

We don't just create products – we are revolutionising the underwater world!  
So come and be part of an innovative and agile team that is dedicated to smart and inspired technology that is rapidly changing the future of underwater robotics.

**In this role you will have overall responsibility for Saab Seaeeye's business systems infrastructure.**

### **Main Responsibilities**

- Review all existing business systems and ensure they are fit for purpose
- Identify and manage systems development, upgrading and integration in line with the needs of the business
- Configure, test and implement feasible and appropriate solutions
- Manage existing IT systems used for manufacturing, new product development and product customisation with the Engineering and Manufacturing departments
- Use process mapping to identify bottlenecks in existing company systems and to suggest improvements to company systems and processes
- Liaise with 3<sup>rd</sup> party software providers to monitor improvements and manage changes
- Assist with development of company reporting and KPI's to allow management to access company measurements in an efficient manner
- Manage and report on spend and project budgets for 3<sup>rd</sup> party and in house system changes and improvements
- Develop and implement business systems enabling and supporting lean manufacturing
- Implement business systems enabling reporting of project budgets, forecasts, actual spend and progress against plan
- Maintain a professional and supportive relationship with other departments in order to deliver business and delivery objectives or deadlines
- Assist with general IT support as and when required for production systems in the absence of the IT Manager

**The role is based full-time on site at our Fareham premises, attracts a full benefit package and competitive salary.**
