SAAB SEAEYE

Master Production Scheduler

We are proud to be world leader in the exciting world of underwater robotics.

Join us as we advance the vital role underwater robotics play in supporting services essential to life in every part of our planet.

Share our passion for innovation and excellence as we pioneer emerging technologies that take underwater robotics into a more sustainable future.

Sophisticated and smart, yet rugged and robust, our robotics work on complex missions in the most hazardous environments on the planet. They are designed, engineered and supported to the highest standards by a committed and enthusiastic team of exceptional people.

In our high-performance culture be inspired, work collaboratively, feel empowered and step up to an exciting future.

Key accountabilities and responsibilities:

- Plan, organise and prioritise production activities so that MRP schedules and sales deadlines are completed within the required timescales.
- Ensure that Systems and Sales Orders are assigned and unassigned in MRP in line with system priorities.
- To monitor that the resource available in each build area is aligned with the actual loading and report potential shortfalls.
- Liaise with Production, Purchasing and QC teams on production build shortages and stoppages to avoid potential delivery failures.
- Regularly communicate with the Production Manager, Project Managers and Production Control Supervisor on production build status, issues and shortages.
- Monitor and report on agreed KPI's as set by the Production Control Team Leader.
- Work to achieve agreed targets and goals set by the Production Control Team Leader.
- Ensure MRP works orders are kept up-to-date in line with Change Requests.
- Facilitate in the closing of system and production works orders quickly and efficiently.
- Regularly monitor forecasts, minimum stock levels and batch size of production assemblies against product usage.
- Provide support and ideas in maintaining and implementing lean manufacturing.
- Use personal judgement and initiative to develop effective and constructive solutions to challenges and obstacles in day to day activities
- Maintain personal ability in, and appropriate use of, all relevant IT (Information & Technology) and other systems required to adequately perform the role.
- Co-ordinate Material Scheduler priorities to ensure availability of Purchased Parts for all requirements
