

Project Manager

Join us in creating the most innovative underwater robotic technology for the harshest environments in the deepest oceans and most turbulent waters.

We lead the world with the most advanced engineering, electronics and software systems for pioneering electric underwater technology.

We don't just create products – we are revolutionising the underwater world!

So come and be part of an innovative and agile team that is dedicated to smart and inspired technology that is rapidly changing the future of underwater robotics.

Main Responsibilities:

- Together with the Program Director and Program Manager, initiate and start up new programs ensuring valid business cases are developed.
- Plan and structure Projects to the appropriate level of detail at work package, activity and task level.
- Lead and manage Project execution teams
- Report Project status and escalate issues to the Program Manager and Project Steering Group as appropriate.
- Track and report Project costs and deliverables, explain variances to plan and implement appropriate countermeasures as required.
- By working with the relevant departments ensure competent resources are identified and assigned to the Project as required to enable successful program execution.
- Ensure adequate Project risk management activities are conducted including risk identification, mitigation and escalation as appropriate.
- As appropriate to the project scope, ensure Saab Seaeye's customers are kept informed and aware of project execution status.
- As appropriate, ensure customer payment deliverables are met and invoices raised as required.
- Close out completed Projects ensuring that lessons learned are logged; issues are closed and follow on actions recorded.
- Promote the implementation of a best practice project execution approach into the Saab Seaeye business.
- Become recognised as a leader in the business by being accountable, holding others accountable and driving Project delivery.
- Enable a collaborative culture by encouraging communication and team work.
- Support the development, implementation and continuous improvement of best practice project management methods.
- Support the Saab Seaeye organisation generally in developing new business opportunities.

The role is based full-time on site at our Fareham premises, attracts a full benefit package and competitive salary.
